

NeuroInclusivity for Early Years

Exciting news, a ground-breaking opportunity!

Would you like to be one of the first Early Childhood Educators in British Columbia to participate in a FULLY-FUNDED professional development pilot that aims to teach ECEs new skills resulting in a NeuroInclusive preschool learning environment... benefitting you, your 3-6 year olds and their families?

Why ...and What does NeuroInclusive mean?

Did you know that current strategies are not designed to reach all learners? Maybe you noticed some of your very bright, curious, creative children do not always respond to current practices. NeuroInclusive strategies ensure that all children have a cognitive equal opportunity...literally from day one.

Strategies

We often say focus, concentrate, pay attention, but no-one ever shows us how. Would you like your children to learn how to relax, focus and manage their own energy levels? Can you imagine how much easier classroom management would be? You will be able to introduce hands-on letter recognition to your children whatever their learning style.

Collaboration

Thanks to the Ministry of Education and Child Care, we, at The Whole Dyslexic Society, have the opportunity of sharing this innovative, inspiring, enlightening and essential information with you...for FREE! This is the precursor to eliminating many so-called learning disabilities from ever arising! Let's do this!

Course Overview

The course will run from October 25th, 2023 - January 31, 2024 and consists of an Online Information Session; a personal interview; 2 X 1hr Introductory Modules; One 2-day Workshop Online or In-Person with assignments; 2 X 1hr reflective modules. We also provide an Information Session for the parents of your children. For more information and to Register visit www.thewds.org/ece.

This is a unique pilot for ECEs, with methods that have already achieved remarkable results.

We recognise and celebrate the innate learning style of your children and we know NeuroInclusivity is achievable. We know the strategies will ensure learning disabilities do not have a chance to occur...

Join us for a free **Information Session on October 25th at 7PM PDT** and discover why...and please pass this on to other like-minded ECEs...THANK YOU !
